

Dear Parents,

We have had a wonderful Kindergarten Year! We have covered a lot of material and participated in many fun and exciting projects. We started to develop skills needed for the first grade. We made many friends along the way too! The Kindergarten team has a few suggestions for your child to do this summer.

Please review the sounds of the letters and keep reading easy reader books or any books your child is interested in reading over the summer. While you and your child are reading, talk about the characters and the setting. Then discuss the order of events that happened in the story. Joining the summer reading program at your local library is also a fun way to keep reading interesting.

Here are some iPad apps and computer games that will help with these skills:

ABC Mouse

Story Creator

Read Me Stories

Endless Reader

Spelling Magic-2

Rocket Speller

Sight Words Learning Games

Starfall.com

ABCYA.com

Have your child use their journal to keep up with their handwriting skills. Writing on the computer using Word is another fun way to keep up with writing skills.

A great app for this is:

Handwriting without Tears

Google: Handwriting worksheets K-12

Don't forget to practice addition, subtraction and identifying and counting with coins. Here are some websites with different activities for your child:

Montessori Numbers

Math Magic K

Monster Math

Telling Time

Stay cool, keep reading and have a fun summer!!

Sincerely,

The Kindergarten Team

Mrs. Blankenship and Mrs. Thompson
