

May 26, 2017

Dear Parents: Thank you for all your support this past year. It is important to our student's education to provide new and different approaches to academic learning. We were fortunate to have www.ixl.com provided to the school this year. Our subscription continues through the summer. New login information will be provided to you in August for the school year 2017-2018. As part of the continuing effort to help our students maintain their academic success, we have created a **Required Summer Math Packet** to be completed over the summer and submitted to Mrs. Johnson (the sixth grade math teacher) on August 14, 2017.

The packet can be found at www.stmcgr5.weebly.com under the **Summer Packets** tab beginning June 2. Students will print the packet consisting of **four** documents and complete the assignment. Work may be done on the document or on a separate sheet of paper. All answers must be shown on the document. If you do not have access to a printer please let the school know by 5/31 and a copy will be sent home with the student on the last day of school.

The **Required Summer Reading** information can be found at www.stmcgr5.weebly.com under the **Summer Packets** tab. Please take time to review the information early in the summer to ensure adequate time to complete the assignment. Also located under the tab will be the **Summer Bucket List**. The list of activities is designed to be fun as well as maintain their academic skills throughout the summer. The **Summer Bucket List** is not required, but we suggest trying at least a few of the activities.

It has been a pleasure working with your children this year. They are a wonderful group of young individuals. We wish the best for them in the coming years. Again, thank you for all your support and kind words this year. Have a safe and enjoyable summer.

Sincerely,

Mrs. Ostermann, Ms. Pennartz and Mrs. Ferri
